**REQUEST FOR POST-STORAGE HEARING**

Review: The California Vehicle Code provides registered and/or legal owners of vehicles that have been impounded for violations of the vehicle code the opportunity for a hearing review. The purpose of the review is to determine the *validity* of the storage and to consider possible mitigating circumstances. You must complete this form and return it to the SDSU Police Department. The form will be returned to you with the "Determination" indicated in the shaded box below.

Determination: You will be notified if the review finds the vehicle was not stored in accordance with policy/regulations, or other circumstances warranting the release of the vehicle.
