Safety Information Guide

Emergencies: 9-1-1 Non-Emergencies: (619) 594-1991

MEDICAL EMERGENCY

- Call 9-1-1 and describe the nature of the medical problem and the campus location.
- If you have been trained, quickly:
 - Control serious bleeding by applying direct pressure on the wound.
 - Begin CPR if the victim is not breathing.
 - If an automated external defibrillator (AED) is available, turn it on and follow the instructions.
 - Remain with the injured person until help arrives.

1. Activate the fire alarm using a manual pull station.
 2. Evacuate the building using the nearest exit or stairwell.
 3. Avoid elevators.
 4. Call 9-1-1.
- Do not re-enter the building until instructed by law enforcement.*

FIRE EXTINGUISHER INSTRUCTIONS

- P** - Pull the pin on the extinguisher
A - Aim the hose or nozzle at the base of the fire
S - Squeeze the handle
S - Sweep the extinguishing agent back and forth at the base of the fire

FIRE

ACTIVE ASSAILANT

RUN. HIDE. FIGHT.

- Exit the building if possible.
- Call 9-1-1 once it is safe to do so.
- If you cannot run, go to an enclosed room, turn off the lights, lock the doors, and barricade entry points.
- If running and hiding are not an option, then fight. Identify items you can use for self-defense and be as aggressive as possible. Work with others if you can.

Indoors

- Immediately DROP, COVER, and HOLD under a sturdy desk or table.
- Position yourself along an interior wall, staying away from glass windows, shelves and heavy equipment that may topple over.
- Do not run outside unless your building is believed to be in immediate danger or collapse.

Outdoors

- Quickly move away from buildings, utility poles, and other structures.
- Stay in an open area.
